How do we play?

Step One:

Click single-sided printing (pages 3-14 for color cards, 15-26 for black and white), laminate (optional), and cut to separate cards.

Step two:

Chose which cards you would like to use based on your class, small group, or individual student.

Step three:

Have student pick a card, read out loud, and answer the "Would You Rather" question.
Or, students pick a card, read out loud to a partner, the partner responds to the question.

Step four:

Have a blast!

The only rule is the student must give an answer. Encourage students to select one choice. Life is about choices; sometimes we have to choose options we may not like.
