- ★ Substitute Activities

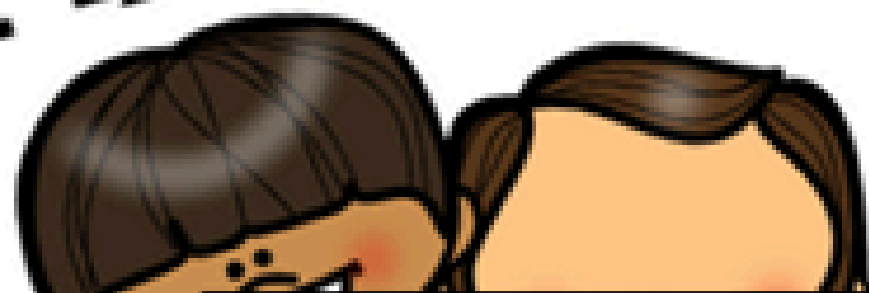

HAPPY EDUCATORS SAID:

So many resources for teaching how to be a good citizen in this product! I especially loved the positive wording of "citizens who need to try harder" rather than "bad citizens."

This is a wonderful resource to use when teaching students about citizenship. thank you so much! - Jaime C.

Thank you! My students had fun with this. I was so appreciative that I had the choice of printing in color or black and white. My district does not have a color printer available for teacher use so I always appreciate B & W. It also allows for the students to color the pictures.

Good CITIZENS

Are responsible and respectful

Make smart choices

Follow the rules

Think of others

Are not responsible or respectful of others or

their property

Do not think before they act

Do not take care of the environment

LET'S CONNECT!
